

INFORMATION AND TRAINING PROGRAM

BE PREPARED NOT SURPRISED

HOW?

COME FIND OUT.

OSHA's **INJURY AND ILLNESS PREVENTION PROGRAM (I2P2)**, [proposed rulemaking].

Reduce injuries and illnesses, through the development and implementation of an accident prevention program that takes a **systematic approach** to addressing workplace safety and health hazards. **Who should attend:** Employers in general industry regulated by OSHA's 1910 standards.

Information will be provided by the USDOL-OSHA Oklahoma City Area Office and the Oklahoma Department of Labor / Consultation, in partnership with the Oklahoma Department of Career and Technology Education.

The program will be presented **at no cost** beginning at **9:00am and ending 12:00 noon** at the following times and locations. Please **register** for the program with the hosting technology center:
